DETAILED ACTION

Election/Restrictions

Newly submitted claim 38 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: claim 38 is directed to a method that does not require the specific occluder of claim 24, e.g. an "umbrella".

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 37 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Arguments

Applicant's arguments with respect to claims 24-38 have been considered but are most in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States

Claims 24-29, 31-36 are rejected under 35 U.S.C. 102(b) as being anticipated by Huebsch et al. (5,853,422). Huebsch et al. discloses a catheter delivered septal defect

Art Unit: 3738

occluder comprising: a tubular frame having parallel slits (col. 3, lines 39-44), made of NITINOL, a nickel-titanium shape memory alloy, (col. 3, lines 64- col. 4, line 1), with circular biodegradable sheets over each end of the frame (col. 7, lines 44-48), the frames forming umbrellas that bend towards the midpoint of the frame (e.g. Figs. 23 and 24).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 30 and 37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Huebsch et al. (5,853,422) as above in view of Goldstein et al. (6,143,037). Huebsch et al. discloses a septal defect occluder however Huebsch et al. fails to disclose the occluder having a galactide and lactide copolymer member covering at least a portion of the umbrella or disc shaped halves. Goldstein et al. teaches a septal defect occluder (col. 31, lines 26-47) having a member (col. 6, lines 33-41) made of a copolymer of glycolic acid and lactic acid (col. 15, lines 37-40) which is useful for targeted local delivery of pharmaceutical agents at a site of medical intervention (col. 1, lines 8-11). It would have been obvious to one of ordinary skill in the art to combine the teaching of a member made of a copolymer of glycolic acid and lactic acid, as taught by Goldstein et al., to a septal defect occluder as per Huebsch et al., for targeted local

Application/Control Number: 10/052,758

Art Unit: 3738

delivery of pharmaceutical agents at a site of medical intervention. Please Note: a glycolic acid and lactic acid copolymer is a galactide-lactide copolymer as admitted by the Applicant (p 11, lines 7-13).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thomas C. Barrett whose telephone number is (571) 272-4746. The examiner can normally be reached on Mon. -Fri. from 9:00-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on (571) 272-4754. The fax phone
